

poker friends

The ranking of most hands is the same as in Poker except you are using only three cards. The straight flush is higher than a "flush". So the royal flush (AKQJ10) and the straight flush (AKQJ10) are the top of the hand rankings, followed by the straight, the flush, the three of a kind, the two pair, the pair, and the high card. The straight flush is somewhat straightforward. The complete sequence of hands in 3-card poker is as follows: 1. Straight flush, 2. Three of a kind, 3. Straight, 4. Flush, 5. Pair, 6. High card. There is no "wild card" in 3-card poker.

4 card Poker :
- straight
- flush
- pair
